

GET THE FACTS

1 in 5 kids will be sexually abused
before age 18.

OUR MISSION

We empower parents and caregivers to protect children from sexual abuse through education and online resources. We make it safe to openly discuss sexual abuse through community dialogue and social awareness.

RESOURCES TO EMPOWER PARENTS

Parents, you can find age-appropriate resources on our website that will help you start a conversation with your child. Having a lot of little talks about important topics like healthy sexuality and consent can help keep your children safe.

TEACH IN YOUR COMMUNITY

We have developed peer-led education resources that can help you share our information in your community. Our first topic is teaching healthy sexuality. For each topic, we have developed a discussion guide based on research and best practices that has been divided into 3 parts. Each part includes a 3-minute video, discussion questions, and an activity. Gather your friends and neighbors and begin educating your community today.
